

----- Forever peace and happiness in this world-----by Sreyam M. sen

I am Hopeful Because...

I sun is still shining

The Moon is still soothing

The breeze is still blowing

The Birds are still chirping

I am Hopeful because...

The seasons are still changing

The clouds are still floating

The rain is still dripping

The sea is still roaring

I am hopeful because...

The flowers are still blooming

The trees are still fruiting

The stars are still blinking

The rivers are still flowing

I am hopeful ...

There will be no hatred in this world

There will be no war in this world

There will be unity in this world

Forever peace and happiness in this world!
